Berlin, Germany • dinomussuto89@gmail.com • +49 174 3891690

Full-stack developer with a user-centric, product mindset, delivering responsive, scalable products end-to-end. Strong in UX/UI, accessibility, performance, reliability, quality, plus requirements discovery, stakeholder communication, cross-functional collaboration, and ownership from discovery to delivery. Analytical, data-driven, problem-solver with a strong design sensibility.

Skills

- **Languages:** JavaScript, TypeScript, C# (basic)
- **Tools & Frameworks:** HTML5, CSS3, React, Next.js, Express.js, ReactRouter, Vite, dotenv, JWT, Vercel, Lighthouse, Bootstrap, Tailwind CSS, Responsive Design, Node.js, API Integration, Mongoose, Git & GitHub, MongoDB Atlas, MongoDB Compass, npm, Postman, Visual Studio Code, WebStorm
- **Interest:** Web Development Trends, Open-Source Collaboration, Team Collaboration Tools, Cybersecurity, AI, Digital Design & Creativity

Professional Experience

Full Stack Developer Intern

[DrengTech IT Solutions](#)

February 2025 - May 2025

Schiphorst, Germany

- **Implemented full-stack features in ASP.NET MVC (C#) using the Model-View-Controller pattern** to enforce separation of concerns and improve maintainability, testability, and delivery speed.
- **Built custom controllers and strongly typed Razor views with model binding and server-side validation**, reducing duplication and simplifying state and data flow.
- **Delivered responsive, cross-browser UIs with HTML5, CSS3, JavaScript**, following accessibility and performance best practices to enhance mobile and desktop UX.
- **Managed relational data with SQL (CRUD: SELECT, INSERT, UPDATE, DELETE)**, writing parameterized queries and joins to support reliable operations and prevent injection risks.
- **Refactored the solution structure (projects, folders, namespaces, layouts/partials)** to improve readability, reusability, and team onboarding/collaboration.
- **Worked in Agile/Scrum with Git/GitHub code reviews and pull requests**, incorporating feedback to raise code quality and hit sprint goals.

Education

Web & Software Developer, DCI Digital Career Institute, Berlin

Jan 2024 - Feb 2025

Projects & Extra

World Trivia Game,

December 2024

Built a dynamic trivia web app with HTML5, CSS3, JavaScript featuring multiple-choice questions, real-time answer validation, score tracking, and optimized rendering, tested for scalability with 50+ users.

Code Square Chat,

January 2025 - February 2025

Developed a real-time chat application using React, TypeScript, Node.js, Express, MongoDB (Mongoose), Socket.IO with JWT authentication, public/private rooms, responsive UI, and clean REST/WebSocket interfaces as a team DCI capstone.

Dreng Games,

February 2025 - April 2025

Delivered the frontend of a gaming website in ASP.NET Core MVC (Razor), HTML5, CSS3, JavaScript, implementing responsive, accessible views and supporting cross-team QA for a smooth design-to-development handoff.
